

Krystal®

Under license from ProSys International USA

Data Sheet

Transparent paint. Acrylic in volatile solvent base.

Function:

It penetrates concrete surface to give high adhesion. Gives pleasant shine to the surface. High UV resistance. Good resistance to pedestrian traffic. Protects concrete from stains.

Application:

Empty large containers into clean dry bucket. Hands apply by roller or brush.

Precautions:

Do not apply Krystal in rainy weather.

Usage:

Widely used to give attractive natural stone look for internal and external floors in private and public buildings.

Curing:

Fast tack free touch depends on ambient temperature.

Coverage:

0.2 liter per m2
