

StikFree®

Under license from ProSys International USA

Data Sheet

Dry shake colored or non colored powder. Applied on top of freshly troweled RokColor.

Function:

Prevent rubber stamps from sticking to RokColor. Gives natural dark shade to low areas of RokColor.

Application:

Empty plastic bag into clean dry bucket. Aerate and homogenize before hand spreading on top of fresh RokColor.

Precautions:

Do not apply StickFree during raining and/or high wind.

Coverage:

0.125 Kg per m2

Colors:

Several standard colors.

Storage:

Do not high stack.

Stack on lifted ballets.

Store away from humidity and direct sun.
